Quote: "In order to further my education and get a college degree I depend greatly on scholarships like the Dolphin Scholarship Foundation. Growing up in a big family is great but means that my parents can't help me and my siblings with college financially. My siblings and I have had to work while in college, but with this scholarship, I am able to work less during the school year and have more time to focus on my studies. I greatly appreciate the Dolphin Scholarship Foundation, and this scholarship is enabling me to pursue a degree in Chemical Engineering. "

Named Scholarship:

Bangor Submarine Spouses' Charitable Association Scholar
